This is the official course taught by awarded, expert CCSI Instructors. This course includes 5 Day's Expert Instruction Official Student Kit from Cisco Systems Official LABS WiFi Training goodies 20hrs additional LAB Time \*\* CISCO LEARNING CREDITS ARE ACCEPTED FOR THIS COURSE\*\*

**Course Name- WIFUND – Wireless Fundamentals**

WIFUND or Wireless Fundamentals is the official recommended training path for students to earn a CCNA specializing in Wireless (CCNA Wireless). Earning a CCNA Wireless certification shows employers you have the ability to perform wireless life-cycle services for small to medium size enterprises. This is the official course taught by awarded, expert instructors (CCIE/CCSI) with WiFi Training. If your career involves planning, designing, deploying, or troubleshooting Cisco Wireless Networks the CCNA Wireless is a fantastic course and is the first step towards earning a CCNP Wireless or Cisco Certified Network Professional specializing in Wireless.

A valid CCENT or CCNA is required before students can earn a CCNA Wireless.

Cisco learning Credits are accepted for this course.

Upon completion of this course, students will be prepared to take **Exam 200-355**

**This course includes**

- 5 Day's Expert Instruction
- Official Student Kit from Cisco Systems
- Official LABS
- WiFi Training goodies
- 20hrs additional LAB Time

**WiFi Training Difference**

- Expert Instructors
- Additional LAB Access after the class – 20hrs Rack Rental Tokens

*Who Should Attend*

- Channel Partners
- Customers
- Employees

As long as students have an active CCENT certification or higher, and passes exam 200-355 the student will earn a CCNA Wireless certification from Cisco Systems.
