Vendor CWNP

Prerequisites

Course Description

Summary WiFi Training, the training business unit of Active Expert is launching authorized training services in Europe, with new facilities opening in Oslo, Norway in 2020. To celebrate we are inviting you to our Wireless Winter event! Go from ZERO to Wireless Hero in less than 3 weeks! REGISTER FOR THIS CLASS TO ATTEND THE FULL EVENT (Weeks 1 and Weeks 2)

Wireless Winter Event 2019

It's no secret 802.11 WiFi is the number one network access medium in the world in networks large and small yet the talent pool to Plan, Design, and Support these networks remains small.

WiFi Training is pleased to offer several accelerated learning programs giving our clients in our new European market the ability to rapidly obtain new wireless skillset's, and certifications from some of the top instructors in the world at an accelerated rate, and attractive price point.

The Wireless Winter event is spread across three weeks beginning **November 4th** and allows wireless students from any background and level the ability to go from Zero to Wireless hero in just three weeks. Students can take one of the courses, or select the ones you need to finish your goals.

Week 1 - November 4th \$3999

- CWNA - Certified Wireless Network Associate (Official Course)
- CWSP - Certified Wireless Security Professional

Week 2 - November 11th \$3999

- CWAP - Certified Wireless Analysis Professional
- CWDP - Certified Wireless Design Professional

Every class includes

- Expert Instructors
- Authorized Course Kits
- WiFi Training NEW - Lab Workbooks and Rack Access**
- Practice Exams
- Vue Exam Voucher
- 60 Day Access to Class Recordings
- WT Swag Pack
- Lunch Included
