Security+ Ultimate Training & Certification Program by WiFi Training

Course Details

Course # Security+
Vendor CompTIA

Prerequisites

Net+, CCNA, Rockstar Network Foundations, or similar associate-level network training.

Course Description

Summary WiFi Training is pleased to announce our new Security+ ultimate training & certification program. We deliver lessons and skills, including exclusive hands-on labs that will have you and your team completely prepared to face the ever-growing list of threats facing modern enterprises today. Welcome to the new Security+ Ultimate Training & Certification program from WiFi Training! Insanity is a reasonable word to use to describe the ever-increasing number of threats facing companies today. One way to ensure your entire team has a common fundamental skillset when it comes to IT Security is to have them attend Security+ training and gain Security+ certification from CompTIA. Our team took the current blueprint from CompTIA's certification program and added a new layer of depth you won't find in other courses that were designed just to meet the blueprint. Our program was designed with a focus on ensuring students gained critical skills to work in today's tech industry, with a solid foundation in

CompTIA Security+ is the first security certification a candidate should earn. It establishes the core knowledge required of any cybersecurity role and provides a springboard to intermediate-level

cybersecurity jobs. Security+ incorporates best practices in hands-on troubleshooting, ensuring candidates have practical security problem-solving skills required to:

- **Assess** the security posture of an enterprise environment and recommend and implement appropriate security solutions

- **Monitor and secure** hybrid environments, including cloud, mobile, and IoT

- **Operate** with an awareness of applicable laws and policies, including principles of governance, risk, and compliance

- **Identify, analyze, and respond** to security events and incidents

Security+ is compliant with ISO 17024 standards and approved by the US DoD to meet directive 8140/8570.01-M requirements. Regulators and government rely on ANSI accreditation, because it provides confidence and trust in the outputs of an accredited program. Over 2.3 million CompTIA ISO/ANSI-accredited exams have been delivered since January 1, 2011.

Course Outline

CompTIA Security+ is the first security certification a candidate should earn.
